We invite you to our Alban Hefin Summer Solstice Ritual and meditation. In Druidry, Alban Hefin means 'The Light of the Shore'. Druidry has a great respect and reverence for places that are 'in between' worlds. The seashore is one such place, where the three realms of Earth, Sea and Sky meet. There is great power in places such as these. It is the time of greatest light when the Solar God is crowned by the Goddess as the King of Summer. At this time and the return of light, the sun has grown stronger and the days have lengthen as the Wheel of the Year begins to turn with declining of light. The Sun's strength is declining and we have entered the waning year. Some traditions consider this time of the Dark Twin, or Holly King, who is born and will take his crown at Alban Arthan.

As is our tradition, Eisteddfod will be after the ritual (sharing of story, poetry, and music) following the rite, so please bring a snack and beverage to ground yourself, bit of music, poetry, a story.

We look forward to seeing you! The Circle of Coll /\
